

Photography, Filming and the Use of Drones

Photography

There is no official limitation on photography at MGS events, however, we expect all photographers at our events - whether they are acting in an official capacity or not - to be mindful that some participants may not wish to be photographed, and to make best efforts not to photograph anyone who has stated such.

Opportunities should be given for any participant who wishes to opt out of being photographed to say so, or for prompt 'take downs' of photos to happen when distributed. To this effect, we expect photographers to promptly remove any unwanted photographs from social media or other publicly-accessible sources on request.

Videography & Drones

Additionally, we consider the use of video recording equipment such as GoPro by any participant to be unacceptable unless explicit permission to use such devices has been given in advance.

Operating drones or similar remote-controlled systems without our explicit permission.
